

A close-up, side-view photograph of a person sitting on a white AERIS Numo chair. The person is wearing a dark blue long-sleeved shirt. The chair has a white, curved backrest and a white seat. The base of the chair is white with four wooden legs. The background is a plain, light-colored wall.

Don't sit still.  
Sit in style.

Award winning AERIS Numo is more than a comfortable chair. By following your movements, it naturally supports your body while adjusting to the way that you're sitting. With Numo, you don't sit still, you sit in style as it swings you back and forth. Never have body, mind and interior existed in such harmony.

## Freedom of movement, freedom of thought

The Aeris Numo expands on the idea of the classic cantilever chair, offering freedom of movement even at the front. As your position changes, the chair moves to support you.

## Kinematics for good vibrations

Thanks to the patented mechanisms, the seat shell of the Aeris Numo adapts to your seating position back and forth. The kinematic mechanism with crossed lever arms is visually reminiscent of the spine's disc structure.

With more than 30 variations of shell colours and frames to choose, the Aeris Numo fits into all kinds of settings and functions – meeting rooms, lounges, offices, concert halls, restaurants, dining tables or even outside on the terrace.

Each one is handmade in Germany with great care and precision.

It was about time to reinvent the way we work and live.  
So that's just what we did.

The issue: We sit too much and don't move enough.  
This is detrimental to our health. The lack of activity  
robs us of our concentration, energy and creativity,  
even after a short amount of time.

The solution: Aeris is driven by the goal of keeping  
our bodies in constant movement. Our products and  
concepts contribute to an active and healthy lifestyle.  
They enable movement in precisely the areas where  
it's least expected, but where it's needed the most  
– when sitting.

We are your secret ingredient for a more active,  
healthier and subsequently happier life.
